

## Engineering Services Division

**We specialize in placing hard to find engineering talent.**

According to the U.S. Department of Labor, the number of engineers in the U.S. will increase by 160,000 from 1.51 million to 1.67 million between 2010 to 2020. This represents a change of 10.6%. The anticipated growth rate for all jobs is 14.3% for the same period, which is an increase of 20.4 million jobs.

Charter Global has a proven track record for sourcing the right talent for your engineering business and project needs. We specialize in placing hard to find engineers, designers, drafters, technicians, maintenance, and skilled IT resources in Fortune 1000 and mid-sized companies. Whether you require one specialized resource or a team of qualified professionals, we have an effective screening and resource management process to identify the right people for the job.
