

Agile Methodology

Improve Project Collaboration with Flexible, Highly Accountable Methodology

By adopting the industry best practice Agile Scrum methodology, your organization can improve its market position and ability to compete.

- ✓ Transparent operations with better visibility among clients, managers, developers, and testers
- ✓ Rapid ROI at 90% less risk ✓ High productivity and reduced errors

Fool Proof Development Methodology

Charter Global's development and solution delivery are required to go through a stringent Agile and Iterative assessment. We develop and integrate the Agile/Scrum methodology through daily scrum meetings, multiple sprint cycles, and through the use of product backlogs.

Our Agile methodology empowers the client:

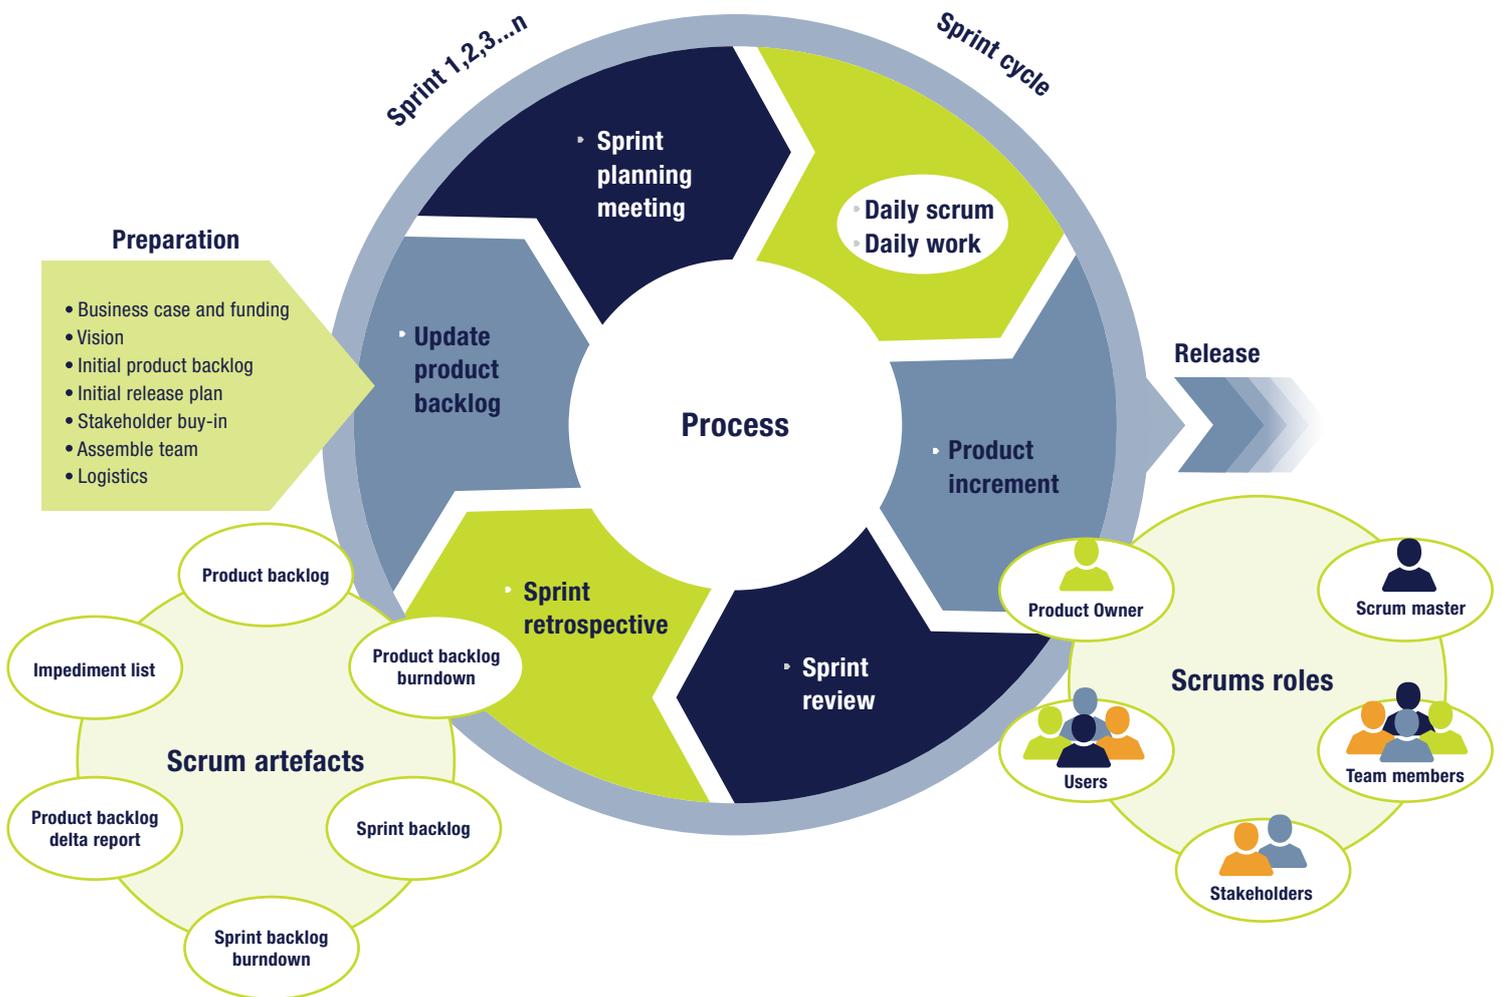

- Deliver at a faster rate with zero tolerance on quality loss
- Sustained growth with improved delivery ratio
- Reduces waste and maximizes effectiveness
- Amplify learning and enhance decision-making capabilities
- Empower users, developers, teams and organization
- Build integrity within and outside the organization
- Provide project participants with a clear direction

Benefits to the Client

- Iterative, incremental, and seamless onshore/offshore management
- Improved communication and reduced dependencies
- Standardized practices with project tracking
- Unbiased assessment of business resources and objectives
- Multi-dimensional engagement models for on-time delivery
- Development of knowledge repository
- Economical resource management
- Effective customer feedback channels to manage change effectively

Agile/Scrum
